ASME Code Weeks Online 2021

ASME Code General Introduction

Date: Monday, 15 March 2021 – Online

A complete overview of the ASME Boiler and Pressure Vessel Code, the ASME Piping Codes and the referenced Standards. We will begin with the jurisdictional rules at the location of installation for the USA, Canada, and other locations, discuss the scopes of all Construction Codes and the function of all reference Codes. ASTM and ASME Code material specifications, requirements, certificates and properties will complement the topics covered by the course.

The seminar language is English.

Duration: 1 Day

Key points of the seminar:

- ASME Code - Key to Export
- ASME, National Board,
  Authorized Inspection Agency & Authorized Inspector
- ASME Certification
- ASME Material, ASTM Specifications and EN Materials
- ASME Section I, Power Boilers
- ASME Section IV, Heating Boilers
- ASME Section VIII, Divisions 1, 2 & 3, Pressure Vessels
- ASME Section III, Nuclear Components
- ASME Piping Codes B31.1 & B31.3
- ASME Section IX, Welding
- ASME Section V, Nondestructive Examnination
- NBIC - National Board Inspection Code
- ASME Code under the PED

Instructor: Sascha Wegener – E-Mail: wegener@cis-inspector.com

Sascha Wegener has accrued more than 15 years of ASME Code experience and thus is a highly competent expert for all ASME Code matters. Before joining CIS GmbH he held the position of the responsible Area Supervisor at One/TÜV/BV in Essen. For years he has successfully supported companies all over the world with their ASME certification both in the nuclear and non-nuclear fields as an ASME Authorized Inspector Supervisor / Authorized Nuclear Inspector Supervisor. In this role he has rendered technical consultancy services to companies from different industrial sectors, such as power plant and mechanical engineering and reviewed their quality systems in numerous audits. He is also qualified as an ASME NQA-1 Lead Auditor. Sascha Wegener has been holding national and international seminars (both public and in-house), workshops and presentations on a wide range of ASME Code topics. In Europe Sascha conducts ASME B31.1 courses on behalf of ASME. Before becoming qualified as an ASME Inspector, he worked as a welding engineer in the quality assurance department of a leading ASME certified boiler manufacturer.
