

ASME Code and PED Requirements

Date: Tuesday, 4 August 2026 – Online

The ASME Code as a sound basis to meet the requirements of the European Pressure Equipment Directive (PED). The seminar begins with a general introduction into PED 2014/68/EU to make the participants familiar with its features – you will learn how to apply the regulations efficiently. Furthermore, the practical application of the directive will be demonstrated on an ASME Code stamped pressure vessel. In this context typical issues and challenges such as material, impact testing, personnel qualification etc. will be addressed.

The seminar language is English.

Duration: 1 Day

Key points of the seminar:

- Introduction into the Pressure Equipment Directive
 - Basics from the „Blue Guide “
 - Presentation of the PED Articles
 - Essential safety requirements
 - Categorization and selection of modules
- PED Workshop (featuring an ASME Section VIII, Division 1 pressure vessel)
 - Fulfilling the „Essential Safety Requirements “
 - Qualification and approval of personnel and procedures according to ASME Code Section IX
 - Material requirements
 - Fabrication requirements
 - Tasks and responsibilities of the Notified Bodies
 - Conformity Assessment and Certificate

Instructor: Dipl.-Ing. Andreas Splinter – E-Mail: splinter@cis-inspector.com

Andreas Splinter has many years of experience as an ASME Authorized Inspector Supervisor. Beyond his common duties as Inspector, Mr. Splinter has gained a lot of experience and knowledge in the area of "Pressure Vessel Directive" 2014/68/EU. Under his control as certification manager of Notified Body in Germany, many large projects which were based on ASME Construction Codes, have been certified and CE marked. Andreas Splinter has held many seminars, both in-house and public, sharing his experience with the participants. For the Notified Body #0090, TÜV Thüringen, Andreas Splinter is also appointed as a PED inspector.
